PROFESSIONAL SUMMARY

I am a detail-oriented and tech-savvy **Front-End Developer** currently transitioning into **Full-Stack Development**. I work with tools like **React.js, TypeScript, SCSS, and Tailwind CSS** to build modern, responsive, and user-friendly web applications that deliver seamless UI/UX and top-notch performance.

With a background in **Graphic and Product Design** since 2015, I combine creative aesthetics with clean code to craft visually engaging and functional digital products. I'm also expanding my backend knowledge while actively growing as a **Cybersecurity Analyst** and **Certified Ethical Hacker**, applying a security-first mindset to every project I build.

TECHNICAL SKILLS

Front-End Development: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, SCSS, Tailwind CSS, Bootstrap, API Integration (REST, JSON, GraphQL), State Management (Redux, Context API), Web Performance Optimization.

Development Tools & Version Control: Git, GitHub, Vite, Webpack, Figma, Adobe XD, Firebase, Supabase, Jest, React Testing Library.

Design & Marketing Tools:

Adobe Photoshop, Illustrator, CorelDRAW, Canva, UI/UX Wireframing, WordPress, Mailchimp, Google Ads, Google Analytics, Meta Ads, SEO (basic), Webflow (learning).

PROFESSIONAL EXPERIENCE

Front-End Developer | Freelance (2023 – Present)

- ✓ Developed and deployed fully responsive, interactive web applications using React.js, TypeScript, and SCSS.
- ✓ Designed and implemented dynamic authentication systems with Firebase and Supabase.
- ✓ Optimized UI components for mobile-first experiences, enhancing user engagement.
- ✓ Built scalable front-end architectures, ensuring modular and reusable codebases.
- ✓ Integrated RESTful APIs and GraphQL for dynamic content fetching and management.
- ✓ Collaborated with designers to convert Figma prototypes into high-quality, functional web applications.

Graphic Designer | Freelance (2015 – Present)

- ✓ Designed brand identities, logos, banners, business cards, and marketing materials for over 100+ clients.
- ✓ Created UI mockups and website layouts, enhancing digital branding for businesses.
- ✓ Managed design projects from concept to final production, ensuring creative direction and quality control.

PROJECTS

Shopping List PWA (August 2025) <https://shopping-list-opal.vercel.app/>

Tech Stack: React.js, Vite, Vite-PWA

A lightweight and responsive Progressive Web App that allows users to manage their shopping lists digitally. Designed to eliminate the need for pen, paper, or a calculator. Users can easily add, track, and delete items while automatically calculating totals.

- ✓ Built with modern React and Vite for speed and efficiency
- ✓ Fully installable as a PWA – works offline and behaves like a native app
- ✓ Floating “Install App” button for user-friendly engagement
- ✓ Emphasis on clean UI, local context, and everyday tech use

Coodeck – Waitlist Registration Page (2024 - 2025) <https://www.coodeck.com/>

Tech Stack: Next.js, Tailwind CSS

- ✓ Developed a responsive waitlist landing page for Coodeck’s upcoming platform launch.
- ✓ Integrated email capture and validation logic for user onboarding.
- ✓ Optimized load performance and mobile responsiveness for early access users.

SocialPay – Web App (2024 - Ongoing) <https://socialpayapp.vercel.app/>

SocialPay is a fintech dashboard built with React.js, TypeScript, and SCSS. Features authentication, user management, and responsive UI.

- ✓ Developing a fully functional fintech dashboard with authentication and user management.
- ✓ Integrating a mock API to simulate real-time user data retrieval and storage.
- ✓ Building a mobile-first responsive UI to ensure seamless usability on all screen sizes.

JDQ Construction Website (2023) <https://nightcrawler-ops.github.io/JDQ-website/> **Tech Stack:** HTML, CSS, JavaScript.

- ✓ Designed and developed a corporate website for JDQ Construction.
- ✓ Optimized website performance and accessibility for search engines (SEO).

Portfolio Website (2023) <https://ayotechportfolio.vercel.app/> **Tech Stack:** React.js, SCSS, GitHub Pages.

- ✓ Created a personal portfolio showcasing projects, skills, and professional background.
- ✓ Implemented aesthetic animations and transitions for an engaging UI.

EDUCATION & CERTIFICATIONS

BSc Computer Science – National Open University of Nigeria (NOUN)

WASSCE (Biyem High School, 2021)

Diploma in Cyber Security – Alison

Ethical Hacker Certificate – IBM (Coursera)

Certified: Responsive Web Design (FreeCodeCamp)

ADDITIONAL DETAILS

Availability: Open to remote and on-site roles.

Languages: English (Fluent)

Interests: Cybersecurity, UI/UX Design, Open-Source Contributions.
